## Jack Opel

Instructor at Madison College and colleague of Joseph Lynch.  
He received his Ph.D. in English from UW-Madison.

“THE IMPACT OF THE RECENT horror film “Get Out” reminds us of horror’s power to touch deep cultural anxieties with both shock and finesse. We sometimes refer to these connections as “text and subtext,” the social frame from which a narrative draws much of its power.

“In this presentation, we will consider Thomas More’s *Utopia* (1516), an imagined conversation with the fictitious traveler Ra-

phael Hytholdeus and his account of the “well and wisely governed” kingdom, Utopia.

“More’s text was a critical broadside into European culture, and the ingenuity of his method clarifies how ideas like text and subtext represent a careful, reflexive way of thinking about troubling contradictions in society and opens new approaches to often intransigent problems.

“From there, we can consider the history of the horror genre, especially in the United States and especially in film, with an eye towards reimagining classic horror formulas for the present day.”

Sir Thomas More, 1478-1535
